

# Who knows how to apply for CIF-funded roof repairs for academies?

GUARANTEED ROOF SOLUTIONS FOR ACADEMIES MADE EASY

# We do

- Free no obligation initial survey
- Surveyor consultations and full site surveys
- All contract documents managed
- Fully insured design of roof replacement and repair with detailing included
- CIF/EFA bid funding assistance
- Expert installation with minimal disruption
- Fire-safe durable quality roofing systems
- Long life robust warranties

## Capital maintenance funding for academies and colleges

The Condition Improvement Fund (CIF) is an annual bidding round offered by Government for academies and sixth-form colleges to apply for capital funding.

The key objective is to identify school buildings in need of repair, in order to keep them safe and in good working order. Priority is usually given to projects which include roof, window and central heating replacements.

SIG Design & Technology has been supplying school roof refurbishments and operate a successful bid process in consultation with specialist educational surveyors for the replacement or refurbishment of flat and pitched roof areas.

With over 120 branches nationwide, SIG Roofing is the largest supplier of roofing materials in the UK, providing our customers with the right flat or pitched roofing solution to their projects.

## How it works

Fully experienced Technical Managers will undertake a comprehensive roof survey to include condition reports, specifications, photographic evidence (internally as well as externally), appropriate drawings and initial costings.

These are then forwarded to the educational surveyors, who will then provide a consultation with the school to discuss the process and to construct a proposal to the CIF that will secure funding for any specific works.

The services undertaken are provided at no cost to the school. Should the bids be successful, the surveyors will then place the works out to tender.

**Start planning early!** Don't wait to contact us until September if you can. The earlier we can start the process of preparing the bid the more likely it will be successful. There is no financial commitment to the school at all, and there is no disadvantage if you contact us right now.
