About SIG Design & Technology

SIG Design & Technology is a part of SIG UK Exteriors, a leading division of SIG plc, one of the UK's market leading specialist supplier to the building and construction industry. SIG Design & Technology offers a complete and impartial design and supply service, built around our roofing products, which follows eight steps to help clients create the Perfect Roof. Designs are covered by our PI insurance and we're part of SIG plc, a FTSE250 company. Our blog at www.singleply.co.uk/blog explores some of your common problems in roof design and system choice.
